PREFACE

The Operations and Statistical Analysis Section of Management Services, Texas Department of Corrections, presents the seventh consecutive Fiscal Year Statistical Report. This report is designed to present a statistical summary of the demographic information on inmates who were admitted to, confined in, and released from the Texas Department of Corrections during Fiscal Year 1983. The time period covered is September 1, 1982 through August 31, 1983.

The Texas Department of Corrections Electronic Data Processing Division was the primary source of data for this document. Other sources within the Texas Department of Corrections were the Windham School System, the Division of Continuing Education, and the State Funds Department of the Business Division. Additional data were provided by the Texas Department of Public Safety.

This report provides management with data to assist in the effective and efficient operation of the Department. In addition, it is a resource document for criminal justice research and provides information to the public.

TEXAS DEPARTMENT OF CORRECTIONS

1983

FISCAL YEAR STATISTICAL REPORT

INTRODUCTION

INTRODUCTION

The data contained in this document are primarily of a descriptive nature and are therefore self-explanatory. However, the following list of pertinent definitions along with a brief narative, will facilitate the reader's understanding of the Fiscal Year Statistical Report.

DEFINITIONS OF TERMS

Inmates Admitted: The admissions section represents actual persons received by the Department under new commitments; it excludes admission transactions involving parole violators, mandatory supervision violators, conditional pardon violators, shock probation violators, and paperwork only. This section contains two actual receives categories: admissions and admissions voluntarily surrendered.

Inmates Discharged: The inmates discharged section represents actual persons discharged by the Department; it excludes all paperwork--only discharges. This category contains three actual discharge categories: discharges--expiration of sentence, discharges--hold, and discharges--court order.

Inmates Paroled: Inmates paroled are actual persons paroled from the Department; all "paperwork only" paroles are excluded. Three categories are represented: parole, parole--hold, and parole--reinstatement.

Inmates on Hand: The inmates on hand section represents the actual number of inmates physically present at the end of any stated workday. For the purpose of this report, on-hand categories are for August 31, 1983.

SMSA: The SMSA is a standard metropolitan statistical area generally made up of a core city with a population of 50,000 or more inhabitants and the surrounding county or counties which share certain metropolitan characteristics.

Mandatory Supervision Discharged: This section includes only those felons whose offenses occurred on or after August 29, 1977; this is the effective date of an amendment to Article 42.12 of the Texas Code of Criminal Procedure to include mandatory supervision of all dischargees of the Texas Department of Corrections. Before the amendment only parolees were under supervision after leaving the prison. The period of mandatory supervision is equivalent to the maximum sentence length less calendar time actually served on the sentence.

Parole Violators: This section includes all inmates who were returned to the Texas Department of Corrections as a result of violating the conditions of their parole.

Mandatory Supervision Violators: This section includes all inmates who have been returned to the Texas Department of Corrections as a result of violating the conditions of their release under Mandatory Supervision.

Shock Probation: This type of sentencing and discharging was introduced by the 65th Texas Legislature. It granted authority to the judges to sentence offenders to TDC for a period of no more than 120 days and no less than 60. Only first offenders who are sentenced to 10 years or less and who committed crimes other than robbery, criminal homicide or rape are affected by this law (ART. 42.12, Sec. 3e). Once released from TDC, they are under supervision of a probation officer. Violators of Shock Probation may be returned to the Texas Department of Corrections.

POPULATION TRENDS AND CHARACTERISTICS

On August 31, 1983, the TDC inmate population was 36,769. One year earlier it was 34,393, thus, TDC experienced an increase in population of 6.91 percent during the 1983 fiscal year.

The increase in population during the 1983 fiscal year can be partially explained by the following facts concerning inmate population flow:

1. Admissions - During the 1983 fiscal year there were 17,981 inmates admitted to TDC with new sentences, an increase of 15.72 percent over the 15,539 inmates admitted during the 1982 fiscal year.

2. Dischargees - There was an increase of 35.57 percent in the number of inmates discharged in fiscal year 1983 over fiscal year 1982. This translates into 524 more inmates discharged in 1983; there were 1,473 discharged in 1982 and 1,997 discharged in 1983. The increase in discharges is primarily a result of the implementation of Senate Bill 640 which granted additional and retroctive good conduct time credit to inmates in TDC. This is likely a one-time effect and in the future the Mandatory Supervision Law will again exert its influence. Consequently, the number of inmates released through discharge will continue to decrease as the number of inmates released under Mandatory Supervision increases.

3. Mandatory Supervision - The number of inmates released under Mandatory Supervision during fiscal year 1983 increased to 7,715. This was an increase of 70.00 percent above the 4,538 inmates released under Mandatory Supervision during fiscal year 1982. This increase was due in part to the application of early release provisions within the Mandatory Supervision statute. As of August 31, 1983, 26,370 inmates or 71.72 percent of the on-hand population had been admitted with new convictions since the Mandatory Supervision Law became effective August 29, 1977. This compares to 23,225 inmates or 67.53 percent of the on-hand inmate population as of August 31, 1982.

4. Parolees - During the 1983 fiscal year there were 8,588 inmates paroled. This represents an increase of 1,135 inmates, or 15.23 percent, from the 1982 fiscal year when 7,453 inmates were paroled.

5. Shock Probation - During fiscal year 1983 the increased use of shock probation resulted in 1,846 inmates being released in this category.

6. Mandatory Supervision Violators - The number of inmates returned to TDC as Mandatory Supervision Violators increased significantly from 863 during fiscal year 1982 to 1,416 during fiscal year 1983. This represents a difference of 553 or a 64.08 percent increase. This increase is, at least, partially explained in the number of individuals who comprised the population at risk. That is, those people who had been released under Mandatory Supervision, and, thus, were candidates for revocation due to violation of the terms of their release.

7. Parole Violators - During fiscal year 1983 the number of Parole Violators returned to TDC increased to 2,857 from 2,435 Parole Violators returned in fiscal year 1982. This was an increase of 17.33 percent.

8. Shock Probation Violators - There were 616 individuals returned to the Texas Department of Corrections as shock probation violators during fiscal year 1983.

SUMMARY

Analysis of the population flow for fiscal year 1983 reveals an increase of 18.63 percent in the total number of inmates admitted (new receives, parole violators, mandatory supervision violators, and shock probation violators). However, during this time period the number of inmates released (parole, mandatory supervision, discharge and shock probation) increased by 44.42 percent. The increase in the number of inmates released was primarily a result of special efforts to reduce the inmate population.

The ethnic composition of those inmates who were incarcerated in TDC during the 1983 fiscal

year was very similar to that of the 1982 fiscal as well as those of previous calendar years. For the on-hand population, August 31, 1983, the ethnic distribution was as follows: Blacks--43.65 percent, Caucasians - 37.49 percent, and Mexican-Americans - 18.85 percent. On the same date in 1982, the distribution was: Blacks - 43.75 percent, Caucasians - 37.84 percent, and Mexican-Americans - 18.41 percent. The similarity of ethnic distributions between the two years remained consistent for inmates admitted, discharged, paroled, and released under mandatory supervision.

There were no significant changes in the mean I.Q. scores for fiscal year 1983 compared with fiscal year 1982. The mean I.Q. score for the inmates on hand during fiscal year 1983 was 86.75.

There were no significant changes in the mean sentence length for the inmates on hand August 31, 1983 (20.33 years) when compared to the mean sentence length for the inmates on hand August 31, 1982 (20.35 years).

With a mean age of 29.88 in fiscal year 1983, there was no significant change from the mean age of 29.74 in fiscal year 1982.

The distribution of offenses committed by inmates incarcerated during the 1983 fiscal year was in all categories of on-hand, discharges, paroles and admitted, very similar to that of the 1982 fiscal year. The crimes for which the majority of TDC inmates were incarcerated were, in rank order: burglary, robbery, and homicide.

CONCLUSION

In summary, the population characteristics of those inmates who were incarcerated in TDC during the 1983 fiscal year showed no conspicuous differences from those of 1982 and other years.

It should be emphasized that this document is presented as a descriptive study of the demographic characteristics of TDC's inmate population. The reader should, therefore, exercise caution when attempting to infer from the described data to cause-effect relationships.

TABLE 1E: ACADEMIC AND VOCATIONAL PROGRAMS ENROLLMENT DATA FOR WINDHAM SCHOOL SYSTEM*

Fiscal Year 1983 Data

Number Receiving High School and High School Equivalency Diplomas During School Year		4037
Special Education Enrollment for School Year**		1983
Vocational Education Enrollment for School Year		4796
Number Receiving Certificates		1230
Average Monthly Enrollment:		16113
Academic	13360	
Vocational (full time)	1637	
Special Education	1116	

Historical Data

Number of Inmates Receiving High School and High School Equivalency Diplomas Since 1970	24674
Number of Inmates Receiving Vocational Certificates Since 1970	8726

*As of August 31, 1983
**Includes all inmates who were enrolled in this program at any given time within the year.

TABLE 1F: COLLEGE ACADEMIC, VOCATIONAL, AND APPRENTICESHIP PROGRAMS ENROLLMENT DATA

Fiscal Year 1983 Data

Junior College Academic Enrollment	9590
Associate Degrees Awarded	407
Senior College Academic Enrollment	1179
Baccalaureate Degrees Awarded	36
Junior College Vocational Enrollment	1309
Junior College Vocational Certificates Awarded	824
Apprenticeship and Training Registrations	1045
Journeyman Apprenticeship Certificates Awarded	160
Texas A&M University Extension Program Enrollment	549
Texas A&M University Extension Program Certificates Awarded	402

Historical Data

Number of Inmates Receiving Associate Degrees Since 1967	2197
Number of Inmates Receiving Baccalaureate Degrees Since 1974	187
Number of Inmates Receiving Vocational Certificates Since 1967	7960
Number of Inmates Receiving Certificates of Completion in Apprenticeship and Training Programs Since 1977	174
